KEY

Good things come in small packages is definitely a way to describe our brand-new lock. Introducing the absolutely stunning fingerprint lock, the M9 Mini Smart Lock. Whilst there may be other locks in similarity out there in the market, the similarities stop there! Don't let the small packaging think you are compromising on security or entry options, they are all there, but in a more compact size to suit someone looking

for a sleek smaller design. Coupled with a Euro standard mortise it's still as secure and compact as ever.

The M9 Mini Smart Lock just oozes innovation. From its compact design to placement of the mechanical key you'll be amazed by its functionality and that so much can be engineered into product that looks as good.
