Loghome LH-300GLC Digital Glass Door Lock

LogHome Digital Door Lock for Glass Doors LH300GC is the fastest way to add security to your glass doors. Package already includes clip for double glass doors installation.

Way to Access:

- Pincode (3 to 19 digits)
- RFID card access (max to 50)

- Built-in fire detection sensor/alarm
- Auto-Lock Capability
- Internal/External dual lock mode
- Force-open alarm
- Emergency power terminal of 9V battery
- Theft & Prank prevention (1 minute stoppage after 5 straight wrong input)
- Auto Card Detection

Key Features of Loghome LH-300GLC:

Basic Functions:

- ✓ **Open/Close button:** manual opening/closing in case of fire or other emergencies
- ✓ **Automatic/Manual Locking:** can choose between automatic or manual locking of bolt once the door is closed. For automatic locking, time to lock can be changed from 2 to 9 seconds
- ✓ **External Dual Locking Function:** door does not open in spite of pressing the open/close button from the indoor
- ✓ **Inside Dual Locking Function:** door does not open even though a valid password from outside is entered
- ✓ **Emergency Power Supply:** when a unit has zero battery, can use 9V Square battery to jump-start unit and enter using registered Pin code/RFID
- ✓ **Master Number Function:** registered pin/RFID in this mode cannot be altered without knowing the master number, usually used for dormitories
- ✓ **Reset Function:** bypass to the 1-minute shutdown of the system after 5 incorrect attempts

- ✓ **Locking Error Alert:** generates an error tone when the door is not properly closed
- ✓ **Sound Volume:** adjust the sound volume of tones

Safety Functions:

- ✓ **Fake Number Function:** hide your true Pin code by pressing random numbers before your real Pin code
- ✓ **Multiple attempt shutdown:** after failure to input valid password in 5th attempt, the operation will not be available for 1 minute
- ✓ **Intrusion and Prank Prevention Function:** generates an emergency alarm for 1 minute when there is an attempt to open a door by force
- ✓ **Fire Detection:** when an indoor sensor of door lock detects fire, it automatically opens the door for safety

Specifications of Loghome LH-300GLC:

- ✚ Power: 6V Alkaline Battery x 4 (AA Size)
- ✚ Battery Life: Average Use of 1 year (10x use per day)
- ✚ Emergency Power: 9V Rectangular Alkaline Battery
- ✚ Glass Thickness: 12mm
- ✚ Door Type: Swing Type (Single or Double, left or right hand)
- ✚ Door Material: Frameless Glass with a 1cm gap between the double door or doorjamb
